# Birds of a Feather

It is not the policy of THE LADIES HOME JOURNAL to allude to its contemporaries. Nevertheless, we feel it proper to point out occasionally that THE LADIES' HOME JOURNAL has been and is the leader, the creative force in journalism women. The advances in magazine quality and the progress in helpfulness were conceived in THE JOURNAL offices.

Those who follow know, what the leader has done and is doing, but they do not know what he is going to do next. In short, the force that makes a leader

maintains a leader.

We have emphasized to our advertisers the inportance of being in front -of doing a thing first. Advertisers with this ambition will do well to consider the advantage of having their advertising associated with the magazine which is first in circulation, first in initiative and first in influence.
